

Forward AM Ultrasint® TPU01 Applications – Automotive.

Challenge:

- New seats and cushioning designs for automotive
- Weight reduction
- Location dependent soften

Solution:

- Simulation project with Ultrasint® TPU01

Headrest

Forward AM Ultrasint® TPU01 Applications – Automotive.

Example:

- Seat cushions

Advantages:

- Personalization, driver-specific seat fitting
- Unique design, lower weight, climate control

Challenges:

- High material emissions, fogging
- Extensive post processing needed
